

4x4 Testimonial

Hi Wade, the 4x4 came back today and it looks really good, got to test it a little bit at the warehouse in gravel. Like you said, it has a lot of torque and no problem turning. Went up on bumper block with front wheels with ease and likes to turn real good on the smooth cement and grab more on hard pack gravel. It is real stable, thank you so much. Looks like the 4x4 design is going to work good for me and I can't wait to get it out to my place to test it more.
